

# SNOWS LAKE

## VINEYARD

### TWO

#### RED HILLS LAKE COUNTY

Vintage:	2004	PH:	3.66
Wine Type:	Red Wine	Aging:	New Oak 47% French oak 100%
Varietal:	Cabernet Blend	Fermentation:	20 months
Appellation:	Red Hills Lake County	Residual Sugar:	0.2 grams per 100mL (0.2%)
Harvest Date:	10 September — 4 October, 2004	Alcohol %:	14.6 %
Acid:	0.59 grams per 100mL		

This Cabernet blend illustrates a wonderful deep vibrant red and purple hue. Lifted aromas of blackberries and subtle raspberry are integrated with hints of cedar and toasted oak. Flavors follow with the same rich blackberry, red berry, an even structure, subtle oak and a tarry finish. This is a wine with a lovely even structure.

### ABOUT THIS WINE

The fruit for this wine came from our high altitude vineyard in the Red Hills of Lake County. These vines are grown with limited yields so as to enhance color, structure and flavor intensity. The season of 2004 was incredibly early, in fact one of the earliest on record. It started with an early bud break, through bloom and set. The spring was warm and the summer quite even, lending the grapes terrific growing conditions. While the season was early, the normal 'hang time' was achieved allowing good development of flavor, enhanced by our practices of balancing the vine crop load.
